The 3 P's - Perfect Position, Perfect Presentation, Perfect Price

A beautiful contemporary home you will see from the start,
This home is perfect for the family, it's been built very smart.

The entrance is big like all of the rooms,

You must come and see this house and come real soon.

The master bedroom is definitely oversized,

Walk-in robe and ensuite with spa you will be surprised.

You will find a separate lounge room or Media room perhaps,

To watch a separate movie in, or read a book to relax.

The kitchen is amazing and you won't believe how big,

Plenty of cupboards and draws for your things, you will really dig.

Stainless steel appliances, massive ceaser bench space you'll see,

Alarm system, very high ceilings, ducted air condition too, can this be!

Sitting outside is so peaceful and tranquil it's a must,

The views from here are sensational, in me you can trust.

A quiet street in Sanctuary Pocket with nice neighbours around,

Everyone is house proud, the wildlife the only sound.

So do yourself a favour and come to see this home,

There is too much to tell you, to fit in this poem,
